

MIMER MEDICAL COLLEGE TALEGAON DABHADE

DEPARTMENT OF OBSTETRICS & GYNAECOLOGY

WORKSHOP SUTURING AND KNOTTING

“A Good surgeon doesn't just concentrate on technical ability, but also on the appropriateness of what is being done”

With this quote a very interesting and unique,

“CME on suturing, knotting and staplers”

was being organized by the Departments of Surgery and Obstetrics & Gynecology at MIMER MEDICAL COLLEGE AND BSTRH HOSPITAL on 15/04/2019 at Sushrut Hall, first floor, OPD building. Many trainees were registered for the workshop.

It started with the overview on suturing and knotting techniques along with hands on training for the registered delegates by Dr. Sushma Sharma. The programme also included topics as “Bowel anastomosis and urinary bladder suturing” by Dr. Sachin Naik and Dr. Tushar Khachane. Laparoscopic suturing with training on endotainers by Dr. Gajanan Waghlikar and intestinal staplers by Dr. Mandar Doiphode and Dr. Sandesh Gawade.

Two MMC points were allotted for this CME. It was very practically applicable CME for the novices and a great learning platform for all. Our institution has always been actively involved in such academic programmes to build good future surgeons and serve the community at large.
