

# Department of Pathology

Nationally acclaimed Hemato-Oncologist, Dr.Sameer Melinkeri, delivered an enlightening 'guest lecture' at MIMER Medical College on 28th September '18.

The topic was "Approach to Anaemia”

It was organized by Department of Pathology in association with the Research Society, MIMER.

Anaemia is the cause for and the effect of many medical disorders, and so a streamlined approach is important.

Dr.Melinkeri enlightened the attendees on this topic in a very simple and lucid manner, using clinical case scenarios. It was a very interactive session, with active participation by the residents and faculty members.

The Department of Pathology in collaboration with Dr. Smeer Melinkeri intend to hold similar lectures on Haematologic Disorders in the forthcoming year.
